

The National Foundation for  
**Special Needs Integrity, Inc.**  
Pooled Special Needs Trust

**I'm Confused! I'm Not A Personal Injury Or Class Action Lawyer.  
I'm an Elder Law attorney!**

About 70% of Special Needs Integrity's business comes in the form of self-settled "(d)(4)(C)" or "Medicaid Payback" trusts. These trusts are usually funded by proceeds from medical malpractice, pharmaceutical negligence, personal injury, or mass tort cases.

However, we operate a third-party special needs trust in nearly every state in which we operate. These trusts generally are funded testamentarily through the will of parents or grandparents. Additionally, these trusts can be funded with life insurance proceeds, or other trusts and related financial vehicles.

Please feel free to give us a call to learn more about using The National Foundation for Special Needs Integrity as a pooled trust option for your clients who are seeking estate-planning solutions for their special needs children or grandchildren.
